WE ARE ALL ONE

Many people today are awakening to the reality of the Oneness that underpins all life, and there is a growing movement for us to come together in recognition that this can help to transform our present planetary challenges.

Dr Jude Currivan: HOW SCIENCE IS NOW EVIDENCING ONENESS - As a cosmologist, planetary healer and author of 'The Cosmic Hologram' Jude is leading scientific-spiritual research into the unified nature of reality and how unity expresses itself through diversity; applying this to support transformational change.

Rev Don MacGregor: HOW MYSTICS HAVE TESTIFIED THE REALITY OF ONENESS - As a recently retired Anglican priest and author of: 'Blue Sky God', Don is embracing mystical and esoteric approaches to spirituality with an emphasis on meditation and contemplative prayer.

Fr Diarmuid O' Murchu: HOW MIGHT WE TOGETHER PROMOTE A FLOURISHING LIFE FOR ALL? - As a catholic priest, member of the Sacred Heart Missionary Order and a social psychologist Diarmuid is an international speaker and author of many leading edge books including: 'Quantum Theology' and 'God in the Midst of Change'.

Marianne Rankin: THE SPIRITUAL EXPERIENCE OF ONENESS IS UNIVERSAL - As Communications Director of the Alister Hardy Trust with its research archive of personal spiritual experiences, she is author of 'An Introduction to Religious and Spiritual Experience' which is widely used as a text-book and she will lead us into a more personal level of experience.
